Policy - Student Mentorship Program

1. A pair of Junior year and Sophomore year students will co-mentor a group of freshmen-year students. Here, the coordination between both mentors is important – hence, you all are requested to ask others if they would like to be a co-mentor with you, and you would have to enter the name and roll number of your preferred co-mentor in the form. You can choose to enter NULL to get a random match. Please make sure that your co-mentor is from the same branch.
2. We are also trying to match students based on their preferences and interests. For example, if a fresher is interested in programming, they would be matched with a mentor who is good at programming. Similarly, mentors would be suitably matched if a fresher is interested in sports, culture, or finance. If a student has no defined interest, a random mentor will be matched. You can choose more than one interest.
3. Mentors will be provided with a list of suggestions on the topics that we urge them to talk about with their mentees. The list will be shared once we have received the applications for mentors. The suggestions can also be given in the provided G-Form.
4. Freshmen students will give feedback on the program and mentors allotted to them. Popular feedback will be delivered to all mentors without revealing students' identity. The feedback will be taken after mid and end of the semesters.
5. Each semester, mentors must arrange 4 meetings with their mentees. It is recommended that multiple mentor groups hold meetings to accommodate different interests. A spreadsheet will be maintained live and will be circulated wherein we will list the groups and the meeting deadlines, which mentors can update after the meeting. Also, at the end of the year- there has to be one collective meeting wherein all the mentor groups of a department would meet; the date would be intimated later.
6. Mentors might be changed if :
 - a. Any mentee doesn't feel comfortable with the mentor.
 - b. Interests of mentees get changed. Thus, other mentors could be of more help.In any such case, not limited to the ones mentioned above, they may reach out to the Academic and Career Council, UG.
